personal-action-plan-template

Personal Action Plan

Practical AI for Professionals, Wrap-up (4:15 PM - 4:30 PM)

Name: _____

Date: _____

Role: _____

What I Learned Today

My top 3 takeaways from the workshop:

1.
2.
3.

The framework I found most useful:

- ☐ AI Task Suitability Spectrum, knowing when to use AI
- ☐ RTCF Prompt Framework, knowing how to brief AI
- ☐ AI-Assisted Analysis Workflow, knowing how to use AI with data
- ☐ AI Opportunity Finder, knowing where AI fits in my work

Why:

The Four Moves

Use these to fill in the plan below. They repeat for the rest of your career, because the line keeps moving.

Move	What it means	Where it lands
1. Decide	Name what must still be judged by human eyes	Your **quarter** list below
2. Practise	Run the compare drill there: your rough pass, AI's pass, side by side	Your **week** commitment below
3. Trade	Hand over only what AI has proven reliable on *your* work	Your **month** redesign below
4. Revisit	Check the trade every few months; take back or hand over more	Your calendar, quarterly

---

This Week

What is the ONE AI tool or technique you'll try?

What I'll do:

Which task from my job I'll apply it to:

The AI tool I'll use:

How I'll know it worked:

This Month

What workflow will you redesign with AI?

The workflow I'll redesign (from Exercise 4 or a new one):

Steps where I'll integrate AI:

What I need to set up first (accounts, permissions, templates):

Who I'll share my results with:

This Quarter

What AI skill will you develop further?

The skill I want to build:

- ☐ Advanced prompt engineering (multi-turn, chain-of-thought, few-shot)
- ☐ AI-assisted data analysis and reporting
- ☐ AI for content creation and communication
- ☐ AI workflow automation (Zapier, Make, Power Automate)
- ☐ Other: _____

How I'll develop it (practice, courses, reading, experimentation):

My goal by end of quarter:

My Prompt Library Starter

Save the best prompts you created today. These are templates you can reuse.

Prompt 1

Task type (e.g., email drafting, data analysis, summarising):

My template prompt:

Prompt 2

Task type:

My template prompt:

Prompt 3

Task type:

My template prompt:

Quick Reference, The Four Frameworks

Keep this page visible at your desk.

When You're Thinking...	Use This Framework
"Should I use AI for this?"	**AI Task Suitability Spectrum**
"How do I write this prompt?"	**RTCF: Role, Task, Context, Format**
"How do I analyse this data with AI?"	**AI-Assisted Analysis Workflow: Prepare → Upload → Question → Verify → Refine → Present**
"Where else can AI help me?"	

When You're Thinking...	Use This Framework
	AI Opportunity Finder: Automate, Assist, Generate, Analyse

Continuing the Journey

Next courses in the series:

AI-Driven Business Innovation "*Which AI project should we fund?*" For executives and strategists making AI investment decisions.

AI Leadership & Project Management "*How do I deliver this AI project?*" For project managers and implementers leading AI initiatives.
